

articles sold before the Lowell fair is over -
Susan Sabers plan is to put all the
articles on a table at the room (for the
female soc has a room all its own)
I then ask the people whom we want
to come, in. I shall see the cold people
I give them all sorts of assurances of
affection, telling them that a box of
articles will come to them after the
Lowell fair - & make every thing
easy ^{as possible} on that head -

I have brought every thing with
me that I want, except the gilt
handles to the screens, & also one of the
paper plates on the back to fit the
handles into is missing. If you cant
find the old one will you make a
new one, you have a glue pot

This is exactly the length. Put it to the handles yourself

you remember how the handles went on, dont
you. Henry will, if you dont.

You will be sorry to hear that the pressure
here in the money market is awful -
Ships all gone round Cape Horn &
even if the oil gets in it wont sell -
What I want done is this. I want a
package carried ~~over~~ sundry night to
the stage office, or at least got to the
stage office by 7 o'clock Monday morn
consisting of the following articles

1st the screen handles -

2. Thing to fit the handle into

3 my netting needle & pin. Lucia has it.

4 a little piece of red mousselin de laine like the baby's gown, which is somewhere in the environs of the back chamber.

5 The list of articles from at B. & the price attached, which is in the correspondence drawer.

6th the half of Anne's cape from Miss Brigham -

Anne or Lucia must attend to this & be sure I get the bundle off monday as I want the sale to take place tuesday or wednesday & must have the handles -

The whole town is up in arms about the elections, which are very closely contested, & as the cold people hold the balance of power all the politicians are violent abolitionists. A most awful story has been got up about Nathan Johnson, in respect to the Gibson's Ellen you know was at our house. Malinex the British Consul wrote word to have them sent to Darien, Georgia, where old Gibson's plantation was situated & from there they were to go to Samoa. Nathan is a democrat, & the whigs took up the matter, implicating Joseph Longden in kidnapping & in short the whole town is ringing with it. I will tell you the whole story as soon as I get it myself. The "Bristol County Abolition Soc", have run or rather got out their nominations for office.

Wendell Phillips for Gov — Rodney French, Borden, &
 two others all I believe supporters of the old gov —
 I will send you the day paper containing Rodney's
 refusal if I can find it — Monday noon — Mr Howland
 has just returned from town & he says that the money
 pressure is as bad as ever — the Whigs are nomi-
 -nating John A Emerson for Representative & the
 democrats Isaac Baker —

2

Mrs. Chapman W. Chapman

Henry G. Chapman Esq.

Boston —

Mass.

NEW BEDFORD
 NOV 8th 1839

2 copies of each must not be sent Anne's mother
 keep up the bundles — I have too —
 don't let the bundles fall apart —

The day after I got here I happened to be examining
 my teeth & discovered a speck on one of my best-
 front teeth, the very front one — you may imagine
 that I was much disconcerted at this — I shall
 go to see a dentist here to-morrow to find out how
 much headway the mischief has made & if
 it will bear 3 weeks delay I shall certainly come
 to Boston thanks giving & have it mended.
 Nobody shall touch my front teeth but Dr Hay-
 -ward that I am sure of — I wish Lucia
 would go to see Dr Hayward and ask him if it will
